# Germany Beck Project

## Interim news of 24hr temporary traffic lights on Fordlands Road this weekend. Saturday 3rd until Monday 5th June

The YW diversion on the A19 was completed in less time than expected. The temporary traffic lights on the A19 were removed yesterday 1st June.

Northern Gas Networks are currently carrying out the gas diversion on Fordlands Road.

The connections to the existing Gas Main require large excavations to remain open in the carriageway. We are therefore installing temporary 24hr temporary traffic lights on Fordlands Road on Saturday 3rd June. They will remain in place until Monday 5th June.

Provision for pedestrians and others using the footpaths will be maintained during these operations. Please follow the directions provided by the signs.

The lights will be manned during the day to ensure no build up of traffic in either direction on Fordlands Road.
