Germany Beck Project

Weeks 118 & 119 commencing Monday 17th

**September 2018 - WARNING NEW ROAD LAYOUT IN
USE FROM TUESDAY 18TH SEPTEMBER**

This is the 60th edition of the newsletter that keeps you up to date with the progress of the Germany Beck junction works on the A19 in Fulford.

During the past 2 weeks we have been preparing for the switching on of the new traffic signals on the A19.

The traffic signals will be switched on Tuesday 18th September. **From that time Fordlands Road traffic should use the NEW ROAD LAYOUT.**

- The new road layout will be signposted
- Access to Fordlands Road, south of the new spine road, will now be through the traffic signals off the A19.
- Fordlands Road to the north of the spine road will be stopped up.
- Residents of Fordlands Road (and Fulford Mews) to the north of the new spine road will still be able to access their properties using the old junction off the A19 as they do now.

The new road layout will be sign posted but it is likely that it will take a few days for traffic to get used to the new layout.

The traffic signals will be in use, however the signal controlled pedestrian crossing will not be switched on

until the completion of the works. Pedestrians using the eastern footpath of the A19 should therefore be cautious when crossing the spine road, watching for traffic before crossing as normal.

There maybe some disruption to traffic using the A19 during the first few days as the phasing of the lights is adjusted to suit traffic flows.

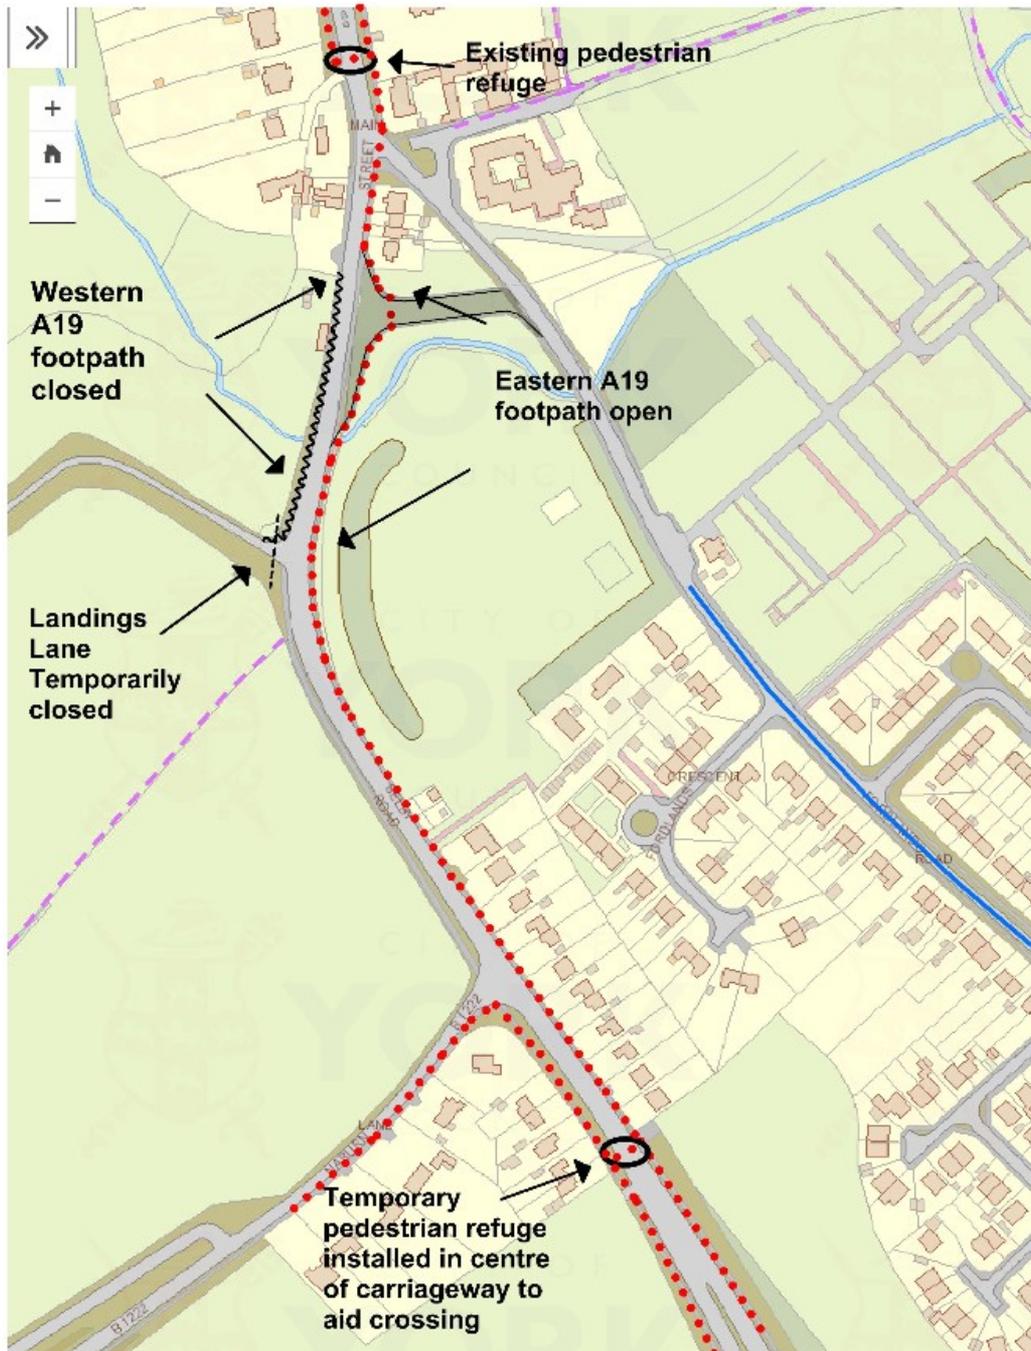

During the next 2 weeks we will be carrying out work to remove the existing access from Fordlands Road onto the spine road. This will help greatly to improve this area of site visually.

We will be piecing up the last section of the brick wall on the A19 and generally carrying out finishing works around the junction.

The western A19 footpath remains closed until the end of September.

The images above show the ongoing works on the residential development.

New A19 footpath route
