

WARNING

There is a Giant Hogweed growing at the Village Green, by the new steps down to the beach. Here is a photo for identification.

DO NOT TOUCH THIS PLANT.

Giant Hogweed contains toxins which make the skin extremely sensitive to light and can cause serious burns up to 48 hours after contact.

The Parish Council is taking steps to remove the plant and this also has to be done with extreme care to protect the people undertaking the work. Spread the word - the Council wants to make sure everyone is aware of the danger.
